

Early Berkshires

Boston & Maine, Boston & Albany AT&SF, Southern Pacific, TH&B, And Illinois Central

The Models are now in Production!

River Raisin Models announces the Early Berkshire project. We have negotiated a great project with many different versions with our fantastic builder, Boo Rim Precision of South Korea. These Lima built locomotives were ordered by the B&A and the B&M in 1925 due to the impressive showing of the A-1 Demonstrator 2-8-4. In 1945 due to the WWII traffic boom, the B&M sold 17 locomotives to the AT&SF and the SP. I want to thank the Division Point Inc. and Owner, Jack Vansworth, for sharing their design data with us. See our website for more information! www.riverraisinmodels.com

___ Factory Installed DCC with Sound Option (additional cost TBD)
(We will contact you if this option becomes available and the cost)

When sufficient reservations are received, River Raisin Models will execute the project with our builder, Boo Rim Precision of Seoul, Korea. The preliminary pricing for these models is \$2299 and the colored boiler models are an additional \$100. Prices are for factory painted and lettered models. Prices do not include shipping and insurance costs which will be added at the final payment time. We are requesting a \$400 deposit per model with each reservation. As always, if the project is not produced, we will return all deposits.
